1. Project Summary

1.1 Project Overview

Curious Tech is an interactive and educational web platform designed for students and technology enthusiasts to explore modern technology topics such as *Artificial Intelligence, Cybersecurity, Space Technology, and Gadgets*. The website provides a visually rich, easy-to-use, and engaging learning experience through articles, blogs, quizzes, and project showcases.

1.2 Project Scope

The website includes:

- Home page with introduction and navigation
- Login/Register page for user authentication
- About page
- Project/Service/Product showcase
- Interactive quiz section
- Contact page
- Blog page

The platform supports:

- Topic categories
- Articles and blogs
- Quizzes and interactive activities
- Featured learning modules
- Latest updates and news

2.0 General Description

The Curious Tech website is a multi-page educational web application created to help users learn and explore modern technology topics in an easy and interactive way. The platform is designed for students, beginners, and technology enthusiasts who want to gain knowledge about areas such as Artificial Intelligence, Cybersecurity, Space Technology, and Gadgets. The system provides a structured learning environment where users can navigate through different sections like the homepage, login page, about page, project showcase, quizzes, contact section, and blog updates.

The website follows a simple and user-friendly interface design, ensuring that users can access information quickly without confusion. It supports both guest users and registered users, while administrators manage the content and user interactions.

The overall system emphasizes:

Easy navigation

Clean educational layout

Interactive learning experience

Responsive design

Clear content categorization

User engagement through quizzes and blogs

This makes the platform suitable for both academic demonstration and real-world educational use.

2.1 Product Functions Overview

The main functions of the Curious Tech website include:

Display technology categories on the homepage

Allow users to log in and register

Show project/service showcase cards

Provide quizzes and interactive engagement

Publish blogs and articles

Allow users to contact the team

Provide admin control over content management

Types of users/actors

- **Guest User**
- **Registered User**
- **Admin**

Admin features

- Add/edit/delete blogs
- Manage categories

- Manage users
- Update showcased content
- View activity stats

Guest User features

- Browse homepage
- Read blogs
- View project showcase
- Access about page
- Contact team

Registered User Features

- Login/Register
- Attempt quizzes
- Save favourite articles
- Comment on blogs
- Track learning progress

2.2 User interface Design

Login page

A hand-drawn sketch of a login page layout on lined paper. The sketch is enclosed in a rounded rectangular border. At the top left, the text "Curious Tech" is written. To its right, the words "login", "Home", "About", and "My profile" are written in a horizontal line. Below "Curious Tech", the text "Login Page" is written. To the right of "Login Page", there are two rectangular boxes, one labeled "Login" and one labeled "Register". Below these, the text "Welcome Back!" is written. Underneath, there are two input fields: "Email" followed by a horizontal line, and "Password" followed by a horizontal line. Below the "Password" field, there is a checkbox labeled "Remember Me". To the right of the checkbox, there is a rectangular box labeled "Login". Below the "Remember Me" checkbox, the text "Forgot Password?" is written. To the right of "Forgot Password?", the text "SignUp" is written. At the bottom left, there are three circular icons: a Facebook 'f', an Instagram 'in', and a Twitter bird. To the right of these icons, the text "Privacy policy" is written.
